March 26, 2009

COMMISSIONER FOR PATENTS  
P.O. Box 1450  
Alexandria, VA 22313-1450

**STATEMENT REGARDING FOREIGN LANGUAGE REFERENCES**

Dear Sir:

The accompanying information disclosure statement cites two foreign language references, JP 10-083310 to Dan et al. and JP 2004-535611 to Choo et al., which were cited during prosecution in Japan of a patent application corresponding to the above-identified U.S. patent application. The relevance of JP 10-083310 is believed to be explained in U.S. Pat. 5,825,877 because U.S. Pat. 5,825,877 and JP 10-083310 are both national stage applications based on the international application published as PCT App. Pub. No. WO02061552. The relevance of JP 2004-535611 to Choo et al. is believed to be explained in U.S. Pat. App. Pub. No. 2003/0149895 because JP 2004-535611 claims priority to and appears to disclose the same subject matter as the U.S. patent application published as U.S. Pub. No. 2003/0149895.

Respectfully submitted,

/David Millers 37396/

David Millers  
Attorney for Applicants
